Heimtextil Russia will be held under a new name Hometextile & Design

September 20 – 22, 2022
IEC Expocentre

Heimtextil Russia 2022 will be held under a new name Hometextile & Design 2022 on previously announced dates September 20 – 22 in IEC “Expocentre”, Moscow. The rebranding follows a decision by Messe Frankfurt to sell its assets to the local management. The relevant procedures will be completed shortly.

The Russian company continues to work steadily as an independent trade show organizer. The exhibitions will take place as planned and the project teams are working as usual. Owing to a longstanding experience at the Russian and foreign exhibition markets, the organiser will maintain the high level of exhibitions.

Rebranding becomes a new stage in the development of the exhibition and will mark the launch of new product groups:

Design of living space, which will include decoration materials, interior items, designer furniture, home accessories, decorative kitchenware; and **Hometextile 4Kids** / Textiles for children's room: baby bed linen, bedding (mattresses, blankets, pillows, bedspreads), textile toys.

The concept and format of Hometextile & Design remains the same. Traditionally rich fringe program will include such events as: Business Space Program, Design Space Program, workshops area and special

projects: International Award for Textile Designers and Decorators and Trend Rooms.

From 20 May, the project websites will be moved to the new platform at www.hometextile-design.ru. Exhibition and exhibitor news will be posted on the updated website.
